" Zemlji kod baze Drevnih , piramide u Sibiru...

Došla je ratna krstarica i svemirski brod sa kristalima koji u sebi imaju memoriju za obnavljanje planete Zemlje ukoliko dođe do resetovanja planete... "

Kontrola baze: Imate odobrenje za ulazak..

Generel: Šo zvala te Alss'sea, kaže da si otišao...

Šo: Da...

Alss'sea: Aham, pita kakvo će resetovanje biti?

Šo: Ništa cela planeta Jedan kilometar dubine ispod i iznad površine će biti pretvoreno u prah....

Alss'sea: Čuje me? Dok pričam? Šo zašto ne razumem? Živiš među njima možeš da prekineš resetovanje i sve oko toga!...

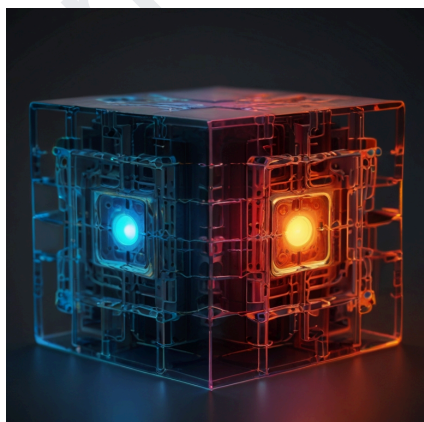

Šo: Posmatram ih od njihovog dolaska na ovoj planeti Zemlji i ako je planeta Zemlja prva matična planeta Reptilijanaca iste one vrste koja napada tvoju civilizaciju sada znaš zašto ...

Alss'sea: Šo možeš da dođeš kod mene? Hitno je... Šo gde si?

Šo: Iza tebe.

Alss'sea: Ček? Kako?! Bez svemirskih brodova si se teleportovao čak ovde?

Šo: Da. Rekla si da je HITNO! Ahahaha...

" Dao joj je kristal sa memorijom ali ona nije mogla da uhvati kristal bukvalno joj je propao kroz ruke i ispao na pod, kristal je bio u obliku kocke... Jer je kristal bio na drugoj frekvenciji postojanja... "

Šo: Gledaj sada...

" Šo je uzeo kocku u ovome je zarobljen mikro delić moje moći. Ovim kockama drugi Drevni mogu da stvaraju svetove i da stvaraju život na njima... "

Alss'sea: Zašto sudiš Čovečanstvu na Zemlji? Šta su to uradili Šo da odlučiš?

" Šo je samo ćutao i gledao u Savetnika da li da kaže ili ne onda mu je savetnik klimnuo glavom da može... "

Šo: Ratovi, 99% ugroženost planete i ako se čini da je okej, vazduh, lete ptičice i ostalo. Planeta im umire... Hvataju pripadnike drugih civilizacija koji dođu samo da istražuju, muče ih, krađu tehnologiju, laboratorijski eksperimenti, pokušaj otmice TEBE Alss'sea dok smo bili u na planeti Zemlji jer si me ti naterala da odemo da ti pokažem planetu.

Alss'sea: Šo ne verujem da su ljudi takvi u toj državi gde smo bili...

Šo: Globalna Zemaljska služba je svuda koja traži vanzemaljce kada su videli mene stali su. Misliš da nisam video da su ti se šunjali iza leđa? Oni su iznad svih država na planeti Zemlji. Inače takvi kroje sudbinu planete Zemlje...

Savetnik: Da su te takli planeta Zemlja ne bi više postojala. Šo bi se pobrinuo lično za to... Sve jedno bi cela Terrana krenula na planetu Zemlju da Šo ne uradi ništa...

Alss'sea: Šo priznaj da ti je bilo lepo tu?

Šo: Hahaha jeste...

Alss'sea: Savetniče ipak Kapljica je bila sa nama. Nagovarale smo Šoa da idemo kod njegove Ru drugarice...

Šo: Savetniče misliš da nebi išao da nije pravila? ahahahhah

P.S Tada je bio baš dug dan...

Videla si me dok si prolazila most ali ti se učinilo zar ne? Hahaha...

◆ DIARY - It was a very long day then...

"Earths near the base of the Ancients, the pyramids in Siberia...

A war cruiser and a spaceship have arrived with crystals that have a memory in them to restore planet Earth in the event of a planet reset..."

Base Control: You are authorized to enter..

General: She called you Alss'sea, she says you left...

Šo: Yeah...

Alss'sea: Ahem, asking what the reset will be like?

Šo: Nothing the whole planet One kilometer deep below and above the surface will be turned into dust....

Alss'sea: Can you hear me? While I'm talking? Why don't I understand? You live among them you can stop the reset and everything!...

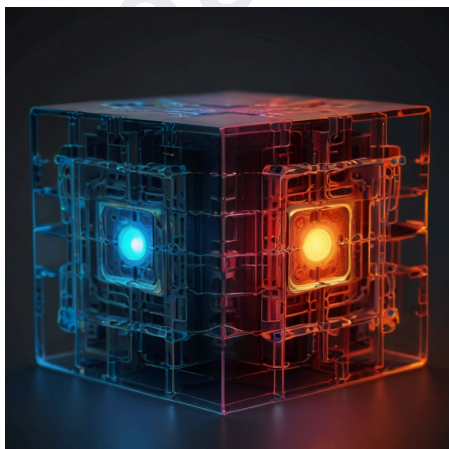

Šo: I have been watching them since their arrival on this planet Earth and if planet Earth is the first home planet of the Reptilians of the same species that are attacking your civilization now you know why...

Alss'sea: How can you come to me? It's urgent... So where are you?

Šo: Behind you.

Alss'sea: Check? How?! Without spaceships you teleported all the way here?

Šo: Yes. You said it was URGENT! Ahahaha...

" He gave her a memory crystal but she couldn't catch the crystal it literally fell through her hands and fell on the floor, the crystal was in the shape of a cube... Because the crystal was on a different frequency of existence..."

Šo: Look now...

" Šo took the cube a micro piece of my power is trapped in this. With these cubes other Ancients can create worlds and create life on them..."

Alss'sea: Why do you judge Humanity on Earth? What did they do Šo for you to decide?

" Šo just kept silent and looked at the Counselor whether to say or not then the counselor nodded to him that he could..."

Šo: Wars, 99% threat to the planet and if it seems okay, air, birds fly and stuff. Their planet is dying... They capture members of other civilizations who come just to explore, torture them, steal their technology, lab experiments, try to kidnap YOU Alss'se while we were on planet earth because you made me go and show you the planet .

Alss'sea: I don't believe that people are like that in that country where we were...

Šo: Global Earth Service is everywhere looking for aliens when they saw me they stopped. You think I didn't see them sneaking up behind you? They are above all countries on planet earth. Otherwise, they shape the fate of the planet Earth...

Counselor: If they were like that, the planet Earth would no longer exist. Šo would take care of it himself... All of Terran would be heading to planet Earth all at once if Šo didn't do anything...

Alss'sea: So admit that you had a good time there?

Šo: Hahaha it is...

Alss'sea: Councilor, after all, Kapljica was with us. We persuaded Šo to go to his friend Ru...

Šo: Councilor, do you think you wouldn't have gone if it wasn't for the rules? hahahahaha

P.S It was a really long day...

You saw me when you crossed the bridge, but you thought it, didn't you? Hahaha...
